Under Govt No No 1878 - 25 dated, Camp 10th March 1887, no exemption from payment of chokidari is claimable in respect of huts situate outside Coppel Estates.

Within letter No 332 of 22nd Nov 1887, the Dy Comr submitted a letter from the Hall praying for reconsideration of a similar order passed in another case.

In reply, he was requested to state whether it would not be sufficient to allow exemption only in the case of those Coolies who live temporarily for say 4 months and in temporary and removable shelters.

Imm Ltr No 293 of 29-9-90, the Dy Comr stated that the exemption recommended in 1887

was requested to
submit to the class
of cooked provisions
in the said order of Govt.
He submitted a
memorandum on 16th January
1893 and stated that
pending Govt orders
he had decided not
to buy materials
on such terms & to
submit a exemption
list in respect of
the articles enumerated.

In August 1894 he
again submitted
a exemption statement
which led to some
further correspondence
ending with letter
No 358 of 19th August.

To justify the
grant of the exemption
recommended, the Queens
order of 10th March
1887 quoted above
would have to be
modified by the
addition of some

huts temporarily for
less than a year
in temporary
& movable "shops".

The Harbour has
not sent up Copies

These huts appear
to have been leased
because they were

to date in reply to the Exemption proposed in my letter No: 332 dated 24th November 1887 was intended to apply only to the class of coolies mentioned in the letter under reply, viz, those who hire temporarily for less than a year in temporary and removable Lespadics.

2 Since the issue of Government Notification No: 461 dated 25th May 1888 allowing grants of land for coolly lines and other purposes connected with coffee cultivation, several applications for such grants have been made and acceded to; but suitable lands in suitable localities are not easily procurable, and while ryots do not, as a rule, object to temporary huts or coolly lines being erected on waste lands they strenuously oppose all permanent alienations of land which they have been in the habit of using for pasture.

3 The proposed Exemption would meet the case of comparatively old coffee Estates the coolies employed on which have for a number of years erected huts on neighbouring grass land. The permanent incorporation of

To,

The Chief Secretary,

Sir,

As requested by Mr E. Hall of Koppa, I have the honor to submit for the orders of the Dewan letter dated 1st November 1887, in which Mr Hall requires reasons for praying that House tax may not be levied on the huts of Coolies built outside of Coffee Estates -

2. In the Dewans Proceedings No 1813 dated 10th March 1887, it was laid down that a ryot not holding land and not being a Shanbogue, but living in a Government village, is bound to pay the Moturfa tax.

3. This was with reference to cases like that of Mr W. Hardie of Mule-manè whose Coolies live in Govern-

ment villages adjoining his Estate -

4. But the circumstances brought to notice by Mr Hall are different, and the clusters of temporary huts built by coolies to live in during the months in which they work on coffee Estates cannot be classed with the Government villages of long standing which supply coolies to other Estates -

5. I am under the impression from observations which fell from the Dewan at the time of the Deputation Assembly, that he recognizes this distinction, and is prepared to reconsider the order contained in Proceedings No 1318/28 dated 19th March 1869 the immediate and main object of which was to make the imposition of the Malatunga tax uniform in the case of both European and Native Planters -

6. I have not succeeded in obtaining the orders of Mr Bowring referred to by Mr Hall -

7. Since writing the above I have received a report on the subject from the Auditor of the Kofiya Talook, a -

1890.

With reference to the above, the Deputy Commissioner is requested to state whether it would not be sufficient to allow exemption only in the case of those coolies who live temporarily for less than a year in temporary and

municate for inspection

of which with the estates would be very difficult to effect. It will be necessary to guard against the idea that exemption from house tax of Cooly lines thus delineated will give any permanent right over the land

The Exemption should I am of opinion be applied to the lines or group of huts not to the individual Cooly.

(21)

Sir

In accordance with a conversation I held with you a short time ago, I have the honor to place before you my reasons why, I consider the Inhalatapa tax should not be levied in this District of Kappa on coolly lines built outside of the Coffee Estates –

And, I have the honor to request that this letter may be forwarded to the Dewan for his consideration for the rescending of the order as far as this District is concerned, as I trust that my views as here set forth will show that the conditions for levying this tax in this District are not the same as in other Coffee Districts.

In the Kaour, Soodigherry and other Districts the coolly labor is mostly, if not altogether, local, and have been located for generations and generations in certain Village which

which have come to be recognised as Government Villages. The coolies in these Villages have in many cases, occupations, other than working on the estates. Their houses are established; in levying the Mohalarfa tax on these coolies whose houses are situated outside of the estates, there may be a certain degree of equity.

Now, on the contrary, with very few exceptions, the coolies, in this District of Koppa are local. All labor is imported. The coolies are simply and solely employed on the coffee estates, and have no other occupation. They only remain from six to eight months, and are not established. Their huts are mere "Japadies" and are not occupied the whole year round, and are rarely occupied by the same occupant yearly. Sometimes these "Japadis" are burnt down for sanitary purposes after the coolies leave. The coolies who come up here leave certain members of their family behind in their Villages in the low country and have to pay Mohalarfa tax on their houses in the said Villages. They therefore would have to pay the tax twice over, if the tax were levied on them here. This would be a great injustice,
